Michaela Shunick was a truly good and special kid, beautiful inside and out. Without question, she would have fought for any person or animal as ferociously as she fought for her own life. She has left us, but a lot of desperate creatures are still in chaos and pain. They could use some help, in Mickey's memory.

We'll call this Mickey's Legacy. This will provide a necessary, responsible, and humane service to the community and beyond. Would you consider donating in Mickey's name? Educators, would you consider becoming a RedRover Reader? Mickey would be proud and delighted that her love and compassion for all animals will continue in her name. A remarkable legacy for a remarkable young woman.

The Shunick family would like to express their deepest gratitude to the entire community for their unfailing kindness, love, and support.
